Enter your Tracking ID and postcode as on your shipment documents

Select **ARRANGE A PICKUP**

Enter your email and contact name

Enter your pickup date and time

Press NEXT

Click "I accept the Terms of Use"

Packing and Collection

Once the test kit has been packaged securely back in the box, place the box into the plastic flyer bag and remove the tape at the end of the bag to seal securely. No activation of kit is required as we have streamlined the process. **Do not drop off** at local FedEx Drop points as the sample needs to be picked up from your address to be transported properly and legally.

If you encounter any problems, please email all enquiries to info@bioxmedical.co.uk, quoting your customer reference number.

Activate your kit on www.bioxmedical.co.uk
